Rep. Jamie Greene, from the 65th District, offered the following invocation:

“Finally, brothers, whatever is true, whatever is honorable, whatever is just, whatever is pure, whatever is lovely, whatever is commendable, if there is any excellence, if there is anything worthy of praise, think about these things. What you have learned and received and heard and seen in me—practice these things, and the God of peace will be with you.”

Father, thank You for the honor of serving the state of Michigan in the Michigan House of Representatives. Guide us in speaking and discovering the truth.

Teach us to be honorable.

Help us to be just, and guard us against anything that keeps us from being pure.

May we strive for excellence in honoring You.

We ask these things in Jesus Name.... Amen.”

The Speaker called the Speaker Pro Tempore to the Chair.

Rep. Aiyash moved that Reps. Bruck and Steele be excused from today’s session.

The department and the department of health and human services shall continue a program to distribute this funding to add licensed behavioral health providers for general education pupils, and shall continue to seek federal Medicaid match funding for all eligible mental health and support services.

(2) The department and the department of health and human services shall maintain an advisory council for programs funded under this section. (5) From the state school aid fund money allocated under subsection (1), there is allocated for ~~2022-2023~~ **2023-2024** an amount not to exceed \$14,300,000.00 to be distributed to the network of child and adolescent health centers to place a licensed master's level behavioral health provider in schools that do not currently have services available to general education students. If a district or intermediate district is not able to procure the services of a licensed master's level behavioral health provider, the district or intermediate district shall notify the department and the department of health and human services and, if the department and department of health and human services verify that the district or intermediate district attempted to procure services from a master's level behavioral health provider and was not able to do so, then the district or intermediate district may instead procure services from a provider with less than a master's degree in behavioral health. To be able to use the exemption in the immediately preceding sentence, the district or intermediate district must submit evidence satisfactory to the department and department of health and human services demonstrating that the district or intermediate district took measures to procure the services of a licensed master's level behavioral health provider but was unable to do so, and the department and department of health and human services must be able to verify this evidence. The department and department of health and human services shall work cooperatively in providing oversight and assistance to intermediate districts during the plan submission process and shall monitor the program upon implementation. An intermediate district shall use funds awarded under this subsection to provide funding to its constituent districts, including public school academies that are considered to be constituent districts under section 705(7) of the revised school code, MCL 380.705, for the provision of mental health and support services to general education students. In addition to the criteria identified under subsection (7), an intermediate district shall consider geography, cost, or other challenges when awarding funding to its constituent districts. Districts receiving funding under this subsection are encouraged to provide suicide prevention and awareness education and counseling. If funding awarded to an intermediate district remains after funds are provided by the intermediate district to its constituent districts, the intermediate district may hire or contract for experts to provide mental health and support services to general education students residing within the boundaries of the intermediate district, including, but not limited to, expanding, hiring, or contracting for staff and experts to provide those services directly or to increase access to those services through coordination with outside mental health agencies; the intermediate district may also contract with 1 or more other intermediate districts for coordination and the facilitation of activities related to providing mental health and support services to general education students residing within the boundaries of the intermediate district; and the intermediate district is encouraged to provide suicide prevention and awareness education and counseling.

(7) A district requesting funds under this section from the intermediate district in which it is located shall submit an application for funding for the provision of mental health and support services to general education pupils. A district receiving funding from the application process described in this subsection shall provide

services to nonpublic students upon request. An intermediate district shall not discriminate against an application submitted by a public school academy simply on the basis of the applicant being a public school academy. The department shall approve grant applications based on the following criteria:

(a) The district's commitment to maintain mental health and support services delivered by licensed providers into future fiscal years.

(b) The district's commitment to work with its intermediate district to use funding it receives under this section that is spent by the district for general education pupils toward participation in federal Medicaid match methodologies. Those measurements must include, at a minimum, the number of pupils served, the number of schools served, and where those pupils and schools were located. 2. Amend page 131, following line 5, by inserting:

“Sec. 979c. (1) From the funds appropriated in part 1 for local unit municipal pension principal payment grants, the department of treasury shall establish and operate a grant program that would provide grant awards to qualified units for deposit into a qualified unit’s qualified retirement system or systems. The grant award payment into the qualified retirement system must be in addition to a qualified unit’s actuarially determined contribution as reported under section 5 of the protecting local government retirement and benefits act, 2017 PA 202, MCL 38.2805, as of December 31, 2021 and must not be used by the qualified unit to meet its actuarially determined contribution for a qualified retirement system or systems.

(2) To qualify for a grant award under this section, a qualified unit must certify and attest via an affidavit that it shall implement all of the following practices upon the receipt of a grant award:

(a) The qualified unit shall make, in full, all actuarially determined contributions. If a qualified unit’s actual contribution is less than the actuarially determined contribution, the qualified unit shall remit an amount equal to the difference to the qualified retirement system within 12 months. If the qualified unit fails to remit this payment within 12 months, the department of treasury may intercept the qualified unit’s revenue sharing payment. For a qualified unit that is a road commission, the department of transportation, in cooperation with the department of treasury, may intercept an available state revenue distribution.

(b) The qualified unit shall not provide contractual benefit enhancements unless the contractual benefit enhancement is 100% prefunded. Failure to meet the conditions of this subdivision requires repayment of the grant award that was received by the qualified unit. The qualified governmental unit shall notify the department of treasury in a form and manner prescribed of any contractual benefit enhancement under this subsection within 30 days.

(c) A qualified retirement system with a discount rate or assumed rate of return less than or equal to 7% must assume a discount rate or assumed rate of return of not more than the current rate. A qualified retirement system with a discount rate or assumed rate of return greater than 7% must lower its discount rate or assumed rate of a return to a rate at or below 7% within the immediately succeeding 5-year period.

(d) The qualified retirement system shall adopt, on the recommendation of the actuary and in accordance with all applicable actuarial standards of practice, the most current mortality tables that are most appropriate for the characteristics of the population, which may subsequently be adjusted based on an experience study of the qualified retirement system.

(e) A qualified unit, if that unit has, previous to the enactment of this bill, had an amortization schedule approved by an accredited actuary in accordance with all actuarial standards of practice, and if that amortization schedule has been reviewed and approved by the state treasurer, is not subject to the uniform actuarial assumptions of retirement systems’ assumption on amortization and may maintain its current amortization schedule.

(f) Within 5 years, the qualified unit shall comply with the uniform actuarial assumptions of retirement systems, except for the discount rate and assumed rate of return assumptions, published as of December 31, 2021 by the state treasurer under the protecting local government retirement and benefits act, 2017 PA 202, MCL 38.2801 to 38.2812, for the qualified retirement system.

(3) The department of treasury shall distribute the funds appropriated in part 1 for local unit municipal pension principal payment grants according to the following:

(a) 60% to qualified units whose qualified retirement systems funded ratios are no less than 60% but less than 80%.

(b) 40% to qualified units whose qualified retirement systems are funded at ratios of at least 80%.

(c) For qualified units that are between 60% but less than 80% funded, grant awards under this section must not exceed \$2,000,000.00 or an amount that would increase the qualified retirement system's funded ratio to 80%, whichever is less.

(d) For qualified units whose funded ratio is 80% or greater, grant awards under this section must not exceed \$2,000,000.00 or an amount that would increase the qualified retirement system's funded ratio to 100%, whichever is less.

(e) A grant must not be awarded if it would increase a qualified unit's funded ratio to more than 100%.

(f) Any funds not awarded by September 30, 2024 must be used for additional rounds of applications until all funds are dispersed.

(g) The \$2,000,000.00 grant cap does not apply to additional rounds of grant awards.

(4) The department of treasury shall develop, and publish on the department website, program guidelines, an application process, and the associated application materials no later than April 15, 2024. The department of treasury must accept applications from qualified units beginning April 15, 2024 and ending on June 15, 2024. Grant awards to a qualified retirement system under this section must be disbursed no later than August 30, 2024.

(5) From the funds appropriated in part 1 for local unit municipal pension principal payment grant, an amount not to exceed \$500,000.00 may be used by the department of treasury for administrative costs related to this section, including, but not limited to, the use of a vendor to assist with processing applications.

(6) If the amount appropriated is insufficient to meet all grant award requests, the department of treasury shall prorate payments under this section by reducing the amount of the allocation as otherwise calculated under this section by an equal percentage per qualified unit receiving funds under this section.

(7) As used in this section:

(a) "Contractual benefit enhancement" means any change to the current benefit policy for active members in a qualified retirement system that increases the actuarially determined contribution rate or decreases the funded ratio of the system. This does not include wage and salary increases.

(b) "Qualified retirement system" means a retirement pension benefit within a retirement system, as defined in section 3 of the protecting local government retirement and benefits act, 2017 PA 202, MCL 38.2803, of a qualified unit, with a funded ratio of 60% or greater based on the last report filed as required by section 5 of the protecting local government retirement and benefits act, 2017 PA 202, MCL 38.2805, as of December 31, 2021.

Rep. Aiyash moved that the bill be given immediate effect.
The motion prevailed, 2/3 of the members serving voting therefor.

Rep. Lightner, having reserved the right to explain her protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

The entire time I have been serving in this body there has been a lot of talk about ‘fixing the damn roads.’

So far, the governor has put our state further into debt by taking on bonds – but that only resulted in more orange barrels on our interstates and highways, not the local roads we drive in our rural communities.

Michigan still hasn't done anything to address the crumbling local roads that families travel every day... the roads we all take on our way to work, or when we're running our kids to soccer practice and grabbing a few groceries from the store.

We started off this year with close to a 9-billion-dollar budget surplus and a historic opportunity to finally make some real progress fixing local roads and bridges.

Unfortunately, the transportation budget proposal before us today fails to make a dent in the problem.

Considering that massive surplus, we should be able to spend a lot more than \$400 million on local roads. And we most definitely should be able to put more than a \$100 placeholder in for the bridge bundling initiative to address failing bridges that are in critical need of repair.

The spending plan before us commits nearly \$75 million to special projects like drones, e-bike purchase incentives, and electric vehicle ventures that could instead be invested in local roads and bridges.

Not only does this budget make a weak investment in local roads, but it also changes the formula by which our local road funding is distributed to prioritize big cities and hurt rural neighborhoods.

Taking all of that into consideration, I must urge a no vote on House Bill 4309."

Rep. Aiyash moved that House Committees be given leave to meet during the balance of today's session. The motion prevailed.

By unanimous consent the House returned to the order of
