Overview

The Michigan Department of Corrections (MDOC) is responsible for operation and maintenance of the state's 26 correctional facilities that house felony offenders sentenced to prison. This includes provision of physical and mental health care, education, food service, transportation, and reintegration programming. The department is also responsible for supervision of all parolees and probationers under the department's jurisdiction and has oversight over community corrections programs and other programs designed to encourage alternatives to prison placement for appropriate offenders. As of September 1, 2025, the department was responsible for 73,225 offenders: 32,416 prisoners; 31,614 probationers; and 9,195 parolees. Compared to last year on September 1, there has been a net decrease in the total number of offenders. The total decreased by 1,033, or by 1.4%. The number of prisoners decreased by 482, or 1.5%. The number of probationers decreased by 614, or 1.9%. The number of parolees increased by 63, or 0.7%.

Overview

The Department of Treasury is the chief fiscal agency of the state and the primary source of advice to the governor on tax and fiscal policy issues. The department's mission is to collect state taxes; to invest, control, and disburse state monies; and to protect the state's credit rating and that of its cities. The department manages one of the nation's largest pension funds, administers revenue sharing, and administers student financial aid programs. It also investigates fraudulent financial activity, provides assistance on all property tax-related issues, and advises issuers of municipal obligations. The Bureau of State Lottery, the Michigan Gaming Control Board (MGCB), and the State Building Authority (SBA) are autonomous agencies housed within the department.

Overview

Article VI of the State Constitution of 1963 forms the basis for Michigan's judicial branch of government. The Judiciary budget provides operational funding for the Michigan Supreme Court, the Court of Appeals, the State Appellate Defender Office, and other judicial agencies. The budget funds the salaries of justices of the Supreme Court and judges of the appeals, circuit, probate, and district courts according to constitutional and statutory requirements. Funding assistance for local trial court operations is provided through a variety of grant programs. The largest of these, the Court Equity Fund Reimbursement program, reimburses counties for trial court operations based on a statutory formula that recognizes circuit and probate caseloads and the number of judgeships.

Overview

The state transportation budget supports state and local highway programs, public transportation programs, aeronautics programs, and administration of the Michigan Department of Transportation (MDOT). Historically, approximately two-thirds of the revenue in this budget has come from state restricted revenue, with approximately one-third from federal sources. State-restricted revenue in this budget includes revenue from motor fuel taxes, vehicle registration taxes, as well as from a \$600.0 million earmark of Income Tax Act revenue, and an earmark of revenue from the state excise tax on recreational marijuana. For FY 2025-26, approximately \$4.0 billion in state restricted revenue will be credited to the Michigan Transportation Fund (MTF) and then distributed in accordance with 1951 PA 51 ("Act 51") to other state transportation funds and programs, including the State Trunkline Fund (STF), the Comprehensive Transportation Fund (CTF), and local road agencies (county road commissions and cities/villages). Revenue from aviation fuel and registration taxes, as well as a portion of Airport Parking Tax revenue, is credited to the State Aeronautics Fund for aeronautics programs. Federal funds for transportation programs are authorized under the federal Infrastructure Investment and Jobs Act (IIJA).

The Conference budget agreement also reflects, in part, revenue and distributions made in a **Transportation Funding Package**. Bills in that package include those listed below:

House Bill 4183 would amend the Motor Fuel Tax Act to increase the motor fuel tax rate from 31 cents per gallon to at least 51 cents per gallon beginning January 1, 2026.

House Bill 4180 and **House Bill 4182** would amend the General Sales Tax Act and the Use Tax Act, respectively, to exempt motor fuel from the sales and use taxes beginning January 1, 2026, and hold the School Aid Fund harmless for revenue lost due to the exemptions.

House Bill 4181 would amend the Streamlined Sales and Use Tax Revenue Equalization Act.

House Bill 4951 would create a new act to impose excise taxes on certain sales or transfers of marijuana and deposit the revenue in the Neighborhood Roads Fund proposed in Senate Bill 578.

House Bill 4961 would amend the Income Tax Act to, among other things, redirect \$600.0 million in income tax revenue currently earmarked to the MTF, as well as additional revenue from the corporate income tax, to the Neighborhood Roads Fund proposed in Senate Bill 578.

Senate Bill 578 would amend Act 51 to create the Neighborhood Roads Fund and the Infrastructure Projects Authority Fund and prescribe the distribution of money from each fund.
