

TALL STRUCTURE ACT (EXCERPT)
Act 259 of 1959

259.482d Extension of transitional surface.

Sec. 2d.

(1) Except as provided in subsection (2), a runway's transitional surface extends to the intersection of the transitional surface with the horizontal surface.

(2) For a runway that has a precision instrument approach, the transitional surface beginning at the side of a runway's approach surface extends for 5,000 feet measured horizontally from the side of the approach surface.

History: Add. 1986, Act 296, Eff. Apr. 1, 1987 ;-- Am. 2016, Act 28, Eff. May 30, 2016
