

NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT (EXCERPT)
Act 451 of 1994

324.35311b Construction, improvement, and maintenance of accessibility measures.

Sec. 35311b.

(1) Notwithstanding section 35316 or any other provision of this part, at the request of the applicant, the construction, improvement, and maintenance of accessibility measures shall be permitted for any dwelling or other permanent building allowed in a critical dune area, including a dwelling or other permanent building approved under this part or a lawful nonconforming use, subject only to applicable permit requirements under sections 35312 through 35325 and the following:

(a) Accessibility measures on slopes steeper than a 1-foot vertical rise in a 4-foot horizontal plane, but not steeper than a 1-foot vertical rise in a 3-foot horizontal plane, shall be in accordance with a site plan submitted with the permit application and prepared for the site by a registered professional architect or licensed professional engineer. The site plan shall include (i) storm water drainage that provides for disposal of storm water without serious erosion, (ii) methods for controlling erosion from wind and water, and (iii) restabilization, by design elements including vegetation, cut-and-fill, bridges, traverses, and such other elements as are required in the judgment of the architect or engineer to meet these requirements.

(b) Accessibility measures on slopes steeper than a 1-foot vertical rise in a 3-foot horizontal plane shall be in accordance with a site plan submitted with the permit application and prepared for the site by a licensed professional engineer. The site plan shall include (i) storm water drainage that provides for disposal of storm water without serious erosion, (ii) methods for controlling erosion from wind and water, and (iii) restabilization, by design elements including vegetation, cut-and-fill, bridges, traverses, and such other elements as are required in the judgment of the engineer to meet these requirements. The engineer shall certify under seal that the accessibility measures are not likely to increase erosion or decrease stability.

(2) As used in this section, "accessibility measures" means a circulation path and at least 1 entrance on a circulation path complying with American national standards institute chapter 4 standards for accessible routes, from a road or easement serving the property, and, at the option of the applicant, from a sidewalk, a driveway, or a garage. As used in this section, accessibility measures do not include driveways.

(3) For the purposes of this section, the choice of components for an accessible route under American national standards institute standard 402.2 shall be at the option of the applicant.
