### **388.1608b Public school academy district code; assignment.**

Sec. 8b. (1) The department shall assign a district code to each public school academy that is authorized under the revised school code and is eligible to receive funding under this act within 30 days after a contract is submitted to the department by the authorizing body of a public school academy.

(2) If the department does not assign a district code to a public school academy within the 30-day period described in subsection (1), the district code the department shall use to make payments under this act to the newly authorized public school academy shall be a number that is equivalent to the sum of the last district code assigned to a public school academy located in the same county as the newly authorized public school academy plus 1. However, if there is not an existing public school academy located in the same county as the newly authorized public school academy, then the district code the department shall use to make payments under this act to the newly authorized public school academy shall be a 5-digit number that has the county code in which the public school academy is located as its first 2 digits, 9 as its third digit, 0 as its fourth digit, and 1 as its fifth digit. If the number of public school academies in a county grows to exceed 100, the third digit in this 5-digit number shall then be 8 for the public school academies in excess of 100.

### **388.1611 Appropriations.**

Sec. 11. (1) For the fiscal period beginning October 1, 2007 and ending October 31, 2007, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$1,049,123,900.00 from the state school aid fund established by section 11 of article IX of the state constitution of 1963 and the sum of \$3,181,800.00 from the general fund. In addition, available federal funds are appropriated for the fiscal year ending September 30, 2008. Funds appropriated under this section are allocated as follows:

(a) Except for funds allocated under section 11j, all state funds are allocated for the same purposes, from the same funding sources, and under the same conditions as state funds were allocated under this act for the fiscal year ending September 30, 2007, and are allocated in an amount equal to 9.09% of the amount allocated for the fiscal year ending September 30, 2007 for each of the purposes provided under each funding section of this act.

(b) Except for funds allocated under section 39a and funds that were allocated under former sections 41a and 98b, all federal funds are allocated for the same purposes, from the same funding sources, under the same conditions, and in the same amounts as those federal funds were allocated under this act for the fiscal year ending September 30, 2007.

(2) The appropriations under this section shall be allocated as provided in this act. Money appropriated under this section from the general fund shall be expended to fund the purposes of this act before the expenditure of money appropriated under this section from the state school aid fund. If the maximum amount appropriated under this section from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a.

(3) If the maximum amount appropriated under this section from the state school aid fund and the school aid stabilization fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 56 shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under sec-

tion 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (4). If proration is necessary, state payments under each of the other sections of this act from all state funding sources shall be prorated in the manner prescribed in subsection (4) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30 calendar day or 6 legislative session day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30 calendar day or 6 legislative session day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(4) If proration is necessary, the department shall calculate the proration in district and intermediate district payments that is required under subsection (3) as follows:

(a) The department shall calculate the percentage of total state school aid allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities other than districts or intermediate districts.

(b) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to districts. This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, and 53a, by that amount.

(c) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, and 56, on an equal percentage basis.

(d) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(iii) for entities other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments under sections 11j, 26a, and 26b, on an equal percentage basis.

(5) Except for the allocation under section 26a, any general fund allocations under this act that are not expended by the end of the state fiscal year are transferred to the school aid stabilization fund created under section 11a.

**388.1611j School loan bond redemption fund; allocation.**

Sec. 11j. For the fiscal year ending September 30, 2008, there is appropriated from the state school aid fund an amount not to exceed \$1,900,000.00 for payments to the school loan bond redemption fund in the department of treasury on behalf of districts and intermediate districts. Notwithstanding section 11 or any other provision of this act, funds allocated under this section are not subject to proration and shall be paid in full.

**388.1617b Amounts to be distributed in installments to districts; electronic files; payments; warrant; adjustments; grant payments; installment schedule; advance release of funds.**

Sec. 17b. (1) Not later than October 20, November 20, December 20, January 20, February 20, March 20, April 20, May 20, June 20, July 20, and August 20, the department shall prepare electronic files of the amount to be distributed under this act in the installment to the districts and intermediate districts and deliver the electronic files to the state treasurer, and the state treasurer shall pay the installments on each of those dates or, if the date is not a business day, on the next business day following that date. Except as otherwise provided in this act, the portion of the district's or intermediate district's state fiscal year entitlement to be included in each installment shall be 1/11. For the fiscal period beginning October 1, 2007 and ending October 31, 2007 only, the portion of the district's or intermediate district's entitlement for that fiscal period to be included in each installment shall be the entire portion. A district or intermediate district shall accrue the payments received in July and August to the school fiscal year ending the immediately preceding June 30.

(2) The state treasurer shall make payment under this section by drawing a warrant in favor of the treasurer of each district or intermediate district for the amount payable to the district or intermediate district according to the electronic files and delivering the warrant to the treasurer of each district or intermediate district, or if the state treasurer receives a written request by the treasurer of the district or intermediate district specifying an account, by electronic funds transfer to that account of the amount payable to the district or intermediate district according to the electronic files. The department may make adjustments in payments made under this section through additional payments when changes in law or errors in computation cause the regularly scheduled payment to be less than the amount to which the district or intermediate district is entitled pursuant to this act.

(3) Except as otherwise provided in this act, grant payments to districts and intermediate districts under this act shall be paid according to the installment schedule under subsection (1). For the fiscal period beginning October 1, 2007 and ending October 31, 2007 only, for all grant payments that are to be made pursuant to an agreement with the department, the department shall ensure that the grant payments made during this fiscal period reflect the reduced appropriation amount for this fiscal period in a way that is appropriate for the program funded by the grant.

(4) Upon the written request of a district or intermediate district and the submission of proof satisfactory to the department of a need of a temporary and nonrecurring nature, the superintendent, with the written concurrence of the state treasurer and the state budget director, may authorize an advance release of funds due a district or intermediate district under this act. An advance authorized under this subsection shall not cause funds to be paid to a district or intermediate district more than 30 days earlier than the established payment date for those funds.

**205.93a Tax for use or consumption; services; charges for intrastate telecommunications services or telecommunications services between state and another state; definitions.**

Sec. 3a. (1) The use or consumption of the following services is taxed under this act in the same manner as tangible personal property is taxed under this act:

(a) Except as provided in section 3b, intrastate telephone, telegraph, leased wire, and other similar communications, including local telephone exchange and long distance telephone service that both originates and terminates in this state, and telegraph, private line, and teletypewriter service between places in this state, but excluding telephone service by coin-operated installations, switchboards, concentrator-identifiers, interoffice circuitry and their accessories for telephone answering service, and directory advertising proceeds.

(b) Rooms or lodging furnished by hotelkeepers, motel operators, and other persons furnishing accommodations that are available to the public on the basis of a commercial and business enterprise, irrespective of whether or not membership is required for use of the accommodations, except rooms and lodging rented for a continuous period of more than 1 month. As used in this act, “hotel” or “motel” means a building or group of buildings in which the public may obtain accommodations for a consideration, including, without limitation, such establishments as inns, motels, tourist homes, tourist houses or courts, lodging houses, rooming houses, nudist camps, apartment hotels, resort lodges and cabins, camps operated by other than nonprofit organizations but not including those licensed under 1973 PA 116, MCL 722.111 to 722.128, and any other building or group of buildings in which accommodations are available to the public, except accommodations rented for a continuous period of more than 1 month and accommodations furnished by hospitals or nursing homes.

This subdivision does not apply to a wide area telecommunication service or a similar type service, an 800 prefix service or similar type service, an interstate private network and related usage charges, or an international call either inbound or outbound.

(3) If charges for intrastate telecommunications services or telecommunications services between this state and another state and other billed services not subject to the tax under this act are aggregated with and not separately stated from telecommunications services that are subject to the tax under this act, a customer may not rely upon the nontaxability of those telecommunications services and other billed services unless the customer’s service provider separately states the charges for nontaxable telecommunications services and other nontaxable billed services from taxable telecommunications services or the service provider elects, after receiving a written request from the customer in the form required by the provider, to provide verifiable data based upon the service provider’s books and records that are kept in the regular course of business that reasonably identify the nontaxable services.

(d) Deduct, to the extent included in adjusted gross income, income derived from obligations, or the sale or exchange of obligations, of the United States government that this state is prohibited by law from subjecting to a net income tax, reduced by any interest on indebtedness incurred in carrying the obligations and by any expenses incurred in the production of that income to the extent that the expenses, including amortizable bond premiums, were deducted in arriving at adjusted gross income.

(iii) Social security benefits as defined in section 86 of the internal revenue code.

(iv) Retirement or pension benefits not deductible under subparagraph (i) or subdivision (e) from any other retirement or pension system or benefits from a retirement annuity policy in which payments are made for life to a senior citizen, to a maximum of \$30,000.00 for a single return and \$60,000.00 for a joint return. The maximum amounts allowed under this subparagraph shall be reduced by the amount of the deduction for retirement or pension benefits claimed under subparagraph (i) or subdivision (e) and by the amount of a deduction claimed under subdivision (r). The maximum amounts allowed under this subparagraph shall be adjusted by the percentage increase in the United States consumer price index for the immediately preceding calendar year.
